

INSTRUCTION MANUAL

LOOP STAND ROUND TABLE

By Leif Jørgensen

HAY

INTRODUCTION

Loop Stand is Leif Jørgensen's well-designed and ultra-functional, no-nonsense series of coat stands, wardrobe furniture and tables, all with a consistent family identity.

Unlike the other family members, the legs of the Loop Stand Round table are not crossed, but feature a classic tripod design that results in a simpler, more graphic expression. The Loop Stand Round table is available in a variety of heights and diameters to extend its versatility to fit individual design requirements.

CARE AND MAINTENANCE

CAUTION

With a little care you can prolong the life of your furniture. Follow the instructions for the materials of your specific product to make sure that it stays in the best shape for as long as possible.

The information below is only intended as a general guideline. For more information on how to remove specific stains, please enquire where you bought the furniture.

- Always remove stains quickly before they can do any permanent damage to the furniture.
- Avoid placing the furniture in direct sunlight or near a strong heat source to reduce changes. As linoleum is a natural material, it will change in colour and will patinate over time.
- When you move your furniture, make sure you lift it rather than pulling or pushing it to avoid damaging the floor, legs and mountings.

- Tighten up the screws after one to two months' use and whenever required.
- Avoid improper use such as putting your feet on the table or standing on it.
- Use coasters under damp, hot or coloured objects to avoid permanent stains.
- Avoid partially covering the surface, for example with tablecloths or place mats, as colour variances may appear.
- Be careful not to scratch or damage the surface with sharp objects.

CARE AND MAINTENANCE

LINOLEUM

- Wipe with a clean cloth wrung in water or in a solution of water and a neutral detergent or soap flakes. Remove soap residue immediately using a clean, dry cloth.
- If the surface is scratched or appears matt, use a care product especially suited to linoleum.
- Stains may be carefully removed using white spirit (mineral spirit) or a damp nano sponge dipped in lukewarm water or linoleum care product. Follow up immediately with a clean, dry cloth. Never use the nano sponge dry.
- Avoid alkaline detergents such as soft (yellow) soap, washing soda, lye and scouring powder.

LAMINATE

- Wipe with a clean cloth wrung in water or in a solution of water and a neutral detergent. Remove soap residue immediately using a clean, dry cloth.
- Stains may be carefully removed using household ammonia or with a clean, damp cloth or a nano sponge wrung in warm water. Never use the nano sponge dry. Follow up immediately with a clean, dry cloth.
- Avoid using scouring cream or scouring pads, as they may scratch the surface.

POWDER COATED STEEL

- Wipe with a clean cloth wrung in water or in a solution of water and a neutral detergent. Remove soap residue immediately using a clean, dry cloth.
- Avoid using scouring cream or scouring pads, as they may scratch the surface.

CAUTION

While assembling, keep the tabletop inside the cardboard box with foam edge in order to protect the tabletop from scratches etc. Make sure that all parts are included.

OVERVIEW

PARTS

A x 1

B x 1

C x 6

1.

Place the trestles standing upright and center the tabletop on it.
Insert the C parts, screwing them through the trestles and into the tabletop.

Make sure the table is upright
when mounting the base.

2.
