MOUNTING INSTRUCTIONS

NB! When handling this lamp please always handle with care as this is a **fragile product.**

NB! Always read the mounting instructions before mounting. If you do not feel comfortable please call a qualified electrician.

NB! For best light distribution always use frosted bulbs. Max 40W in total.

1. Carefully guide the cord and base through the hole in the white glass.

2. Carefully press the white glass onto the base until it sits tight.

3. Guide the base rod through the small metal ring.

4. Carefully guide the base rod through the clear glass and make sure it is placed correct.

5. Place the base rod in the hole in the foot and make sure everything is in place.

6. Press slightly down on the lamp and tighten the three hex screws little by little.

7. Mount all the bulbs.

8. Carefully place the frosted disc over the thread.

9. Place the small protective disc on top of the frosted disc.

10. Carefully place the second clear glass shade and make sure it is placed correct.

11. Lower the metal tube onto the glass and press slightly while twisting and tightening.
